ABOUT D. JOHN CARLSON

With a reputation for lateral thinking and finding solutions to complex problems, John Carlson complements his particular expertise in innovation and developing next generation opportunities.

Having studied psychology, education and business, and with more than 25 years of experience in business working around Australia, John consults to a range of individuals and organisations on branding, marketing and communication – providing specialist services in research, strategic planning and management.

Advising to a wide range of public and private companies, public sector organisations, government, and not for profit organisations, John's expertise has been recognised through winning numerous awards for his work in branding, marketing, communication and ethics.
